RE: Life-Saving Award

On May 28, 2018 while in route to the Belvidere Police Department, **Sergeant Martin Gorsuch** came upon a crash in Winnebago County. He immediately stopped to assist Winnebago County Deputy Coroner Winsted who was present at the scene.

Upon arrival, Sergeant Gorsuch observed that the driver of the vehicle was unresponsive and not breathing. He noticed signs that the driver was possibly suffering from an overdose. Deputy Winsted then provided Sergeant Gorsuch with Narcan which he immediately administered. A short time later, the male became alert and was able to talk.

Sergeant Gorsuch is commended for his dedication to serve and protect those who are in need of assistance. As a result of his commitment, on this date, a life was saved. In recognition, Sergeant Gorsuch is thanked for his service and presented with a "Life-Saving" award.

RE: Life-Saving Awards

On May 29, 2018 **Officer Ryan Davenport, Officer Cory Lane** and **Officer Chris Garcia** responded to a call involving a subject not breathing.

Officer Davenport arrived on scene first and observed the female lying in bed and not breathing. Her lips were blue in color and she did not respond to a sternum rub. Officer Davenport moved her to the floor and began CPR. Officer Lane and Officer Garcia then arrived and Officer Garcia assisted Officer Davenport with chest compressions and connecting the AED.

When Lifeline Ambulance arrived, the female was placed in the ambulance and Officer Lane assisted the Belvidere Fire Department with chest compressions while in route to Swedish American Hospital in Belvidere. At the hospital, medical personnel were able to reestablish a pulse. She was later transported to Swedish American Hospital in Rockford in critical condition.

These Officers are commended for their quick response to this call for service and their immediate CPR efforts. As emphasized in the Belvidere Police Department's mandatory CPR/AED training, the sooner CPR efforts are initiated, the better the chance of saving a person's life.

In recognition of their actions, Officer Davenport, Officer Lane and Officer Garcia are hereby presented with "Life-Saving" awards.

RE: NOTICE OF DONATION

Please be advised that the Belvidere Police Department is in receipt of a donation of \$1,500.00 from Gordon and Linda Neese:

- Check No. 601768383 for \$696.03
- Check No. 601768407 for \$803.97

Mr. Neese has made annual donations to the Police Department for several years. This year, Police Department Administration is requesting that these funds be used towards the purchase of an Air Science Purair Basic Ductless Fume Hood at a cost of \$1,780.00 as shown on the attached document.

When officers are required to test drugs that possibly contain Fentanyl and Carfentanil, they can be exposed to hazardous particulates. Ductless Fume Hoods isolate and trap chemical vapors and substances, thereby preventing officers from exposure to life threatening substances and providing a safe work environment. This ductless fume hood is self-contained and does not require outside venting.

Motion: To accept the donation of \$1,500.00 from Gordon and Linda Neese for the purchase of an Air Science Purair Basic Ductless Fume Hood at a cost of \$1,780.00; with the remaining \$280.00 to be paid for through the State Asset Forfeiture Account.

IN STOCK Air Science Purair® Basic Ductless Fume Hoods

from **\$1,780.00**

*Note: Units do not ship with filters. Trays are sold separately. See price chart below.

The Purair® Basic ductless fume hoods are a series of high efficiency products designed to protect the user and the environment from hazardous vapors generated on the work surface. At the heart of the Purair® fume hood product line is the innovative Air Science® Multiplex™ Filtration Technology that creates a safe work environment over the widest range of applications in the industry.

DUCTLESS TECHNOLOGY

Advanced carbon filtration technology offers a safe, high performance alternative to conventional ducted fume hoods for a broad range of applications.

- **Environment Benefits.** Air Science ductless fume hoods isolate and trap chemical vapors to prevent ecological impact through release into the environment.
- **Versatile.** Each filtration system is selected for its specific application. The Multiplex Filter broadens the range of applications. Carbon filters are available in more than 14 configurations for use with vapors or organic solvents, acids, mercury and formaldehyde. HEPA/ULPA filters can add to biological safety.
- **Easy to install.** The ductless fume hood is self-contained and does not require venting to the outside. Many units are portable and may be moved from one location to the next with minimal downtime and without filter changes. Set-up, operation and filter maintenance are straightforward.
- **Energy Efficient.** Because filtered air is returned to the room, no demands are required of the facility HVAC capacity for make-up air.
- **Cost Effective.** Facility ductwork, HVAC and construction costs are eliminated.
- **Safe to Use.** Cabinet airflow and face velocity protect users from incidental exposures to fumes.
- **Self testing.** (selected models) Electronics air-flow monitoring assures continuous safety. An electronic gas sensor monitors carbon filter performance.

PRODUCT FEATURES

- **Filter I.D. Window:** A strategically placed front cover window shows the installed filter part number and installation date for convenience and to encourage timely filter replacement.
- **Air Velometer:** (Optional) An analog air velocity meter in the field of vision of the user.
- **Hinged Front Sash:** When closed, the cabinet sash protects the contents from inadvertent external contact, and better isolates the air within. The sash is easy to open and close.
- **Control Panel:** Electronic controls and displays include switches for the blower and low airflow alarm.
- **Steel Support Frame:** The chemical resistant epoxy coated steel frame adds mechanical strength. The pre-filter can be changed while the unit is operating to prevent operator exposure to chemical vapors.
- **Electrostatic Pre-Filter:** The 99.5% effective electrostatic pre-filter is accessible from inside.
- **Pass Through Port:** Electrical cords and cables are safely routed into the cabinet through ports on the back and side walls.
- **Color:** The cabinet is white with blue trim; side and back panels are clear.
- **Airflow Alarm:** A continuous air velocity monitoring system alerts the operator upon unacceptable values.
- **Manual Speed Controller:** The operator may set the centrifugal fan motor speed as desired.
- **360 Degree Visibility:** Clear back and side panels allow ambient illumination into the chamber and provide users with an unobstructed view of its contents.
- **Standards Compliant:** Performance specifications and construction meet or exceed OSHA, ANSI and relevant international standards to assure operator safety.

PURAIR BASIC FEATURES & BENEFITS

Request to Purchase Training Material and Tracking Program

06/21/2018

Dear Mayor and City Council,

We are requesting to purchase an annual subscription to an online service to provide online Fire, EMS, and OSHA training, and to help us track our training related to the State Fire Marshal (SFM), Insurance Services Organization (ISO), State and Federal Compliance, and our training records in general.

The leading provider of this service in Illinois is called Target Solutions. This platform provides on-line training courses, and records management applications that have rapidly gained popularity in the fire service in our area.

Tracking training is constantly increasing in difficulty as more of our certifications require the tracking of continuing education training. Recently the state of Illinois has begun to require the logging of continuing education for all operations level certifications.

Many departments have training coordinators that are administrative and can devote significant time to Training Program Management. We do not, but by having this solution, we can accomplish more efficiency and standardization with the help of this program.

Currently, there is no company that provides this combination of services specifically for the fire service, so we are unable to provide additional quotes from different vendors. We are requesting to spend out of our training line item \$2,887.00 to purchase this service for one year. The fee is \$89 per member, which is significantly less than enrollment into a single class.

Thank you for your consideration,

Captain Schadle

Re: General Mills Playground Donation

Dear City Council:

The City of Belvidere received an \$8,000 donation from Jeanne Baker to help pay for additional costs associated with the construction of the General Mills Playground. This generous donation was instrumental in helping pay for the playground border, gravel, concrete, mulch, and Kids Around the World expenses. Her donation helped to make this important project a reality.

I am requesting that the City Council formally accept her donation of \$8,000.

"Vehicle fuel" includes, but is not limited to, gasoline, gasohol, diesel oil, ethanol, motor benzol, motor benzene, propane gas fuel, kerosene and "special fuel" as defined in the Illinois Motor Fuel Tax Law, as amended [ILCS Ch. 35, Act 505 § 1.13], and blends thereof.

Sec. 106-301. - Local motor fuel tax imposed.

- (a) A local motor fuel tax is hereby imposed upon the purchase of each gallon of motor fuel, or fraction thereof, sold at retail within the corporate limits of the City, at the rate of ____cents (\$) per gallon, effective_____. The ultimate incidence of and liability for payment of the tax is to be borne by the retail purchaser of motor fuel. Nothing in this chapter shall be construed to impose a tax upon the occupations of persons engaged in the retail sale of vehicle fuel. It shall be the duty of every retail vehicle fuel dealer to secure the tax from the purchaser at the time the retail vehicle fuel dealer collects the purchase price for the motor fuel and to pay over the tax to the City through the Department.
- (b) In the event motor fuel is dispensed in a unit of measure other than the gallon, the tax shall be imposed at the same ratio to one cent (\$0.01) as the unit is to the gallon. The tax shall be paid in addition to any and all other taxes and charges.
- (c) It shall be presumed that all sales and uses of motor fuel in the City are subject to the local motor fuel tax until the contrary is established, by clear and convincing evidence. The burden of proving that a sale or use is not taxable under this article shall be upon the retail vehicle fuel dealer, purchaser or user so claiming.
- (d) The local motor fuel tax imposed by this article shall not be applicable to the privilege of purchasing or using vehicle fuel when such fuel is purchased or used, as the case may be, by the federal government, or any of its instrumentalities.

Sec. 106-302. - Collection and remittance of local motor fuel tax.

- (a) The local motor fuel tax shall be collected by each retail vehicle fuel dealer, who shall have the duty to collect the local motor fuel tax from the purchaser of the vehicle fuel, and thereafter remit such local motor fuel tax to the City.
- (b) If any retail vehicle fuel dealer fails to collect the local motor fuel tax, such retail vehicle fuel dealer shall remain liable for the local motor fuel tax not collected and shall pay the amount of the local motor fuel tax due to the City in accordance with this Article.
- (c) On the 20th day of each calendar month the retail vehicle fuel dealer shall transmit a report of sale of all vehicle fuel in the previous month, on forms to be provided by the City and substantially similar to form RMFT-5, and/or RMFT-144 or such other forms utilized by the Illinois Department of Revenue for the collection of the State of Illinois Fuel taxes, together with a sum of money equal to the amount of the local motor fuel tax owing for the applicable month. A retail vehicle fuel dealer may retain 1% of the total sum of motor fuel tax owed for the applicable month as a credit to reimburse the retail vehicle fuel dealer for the time and expense incurred in connection with collecting and remitting the local motor fuel tax.
- (d) Failure by the retail vehicle fuel dealer to file sales and use tax returns with the Illinois Department of Revenue shall not relieve the retail vehicle fuel dealer from the responsibility to pay the local motor fuel tax to the City.
- (e) Late or unpaid payments of the local motor fuel tax shall, in addition to penalties as set forth in this Article or in Section 1-9 of the City of Belvidere Municipal Code, be subject to interest at the rate of 1 ½ percent per month or each fraction thereof.

Sec. 106-303. Registration.

Each retail vehicle fuel dealer shall register as a retail vehicle fuel dealer with the upon forms provided by the Budget Officer.

Sec. 106-304. - Recordkeeping; inspection of records; audits.

Every retail vehicle fuel dealer shall keep accurate books and records of the retail vehicle fuel dealer's business or activities, including original source documents and books of entry denoting the transactions which have given rise or may have given rise to any tax liability, exemption or deduction. Every retail vehicle fuel dealer shall also keep accurate copies of all documents, including but not limited to motor fuel tax returns, filed with any federal or state agency or department. All documents shall be maintained in the English language.

The Department, or such other officer of the City as the Mayor shall designate, shall have the right to inspect all books, records, and reports of all retail vehicle fuel dealers during the City's regular business hours.

Sec. 106-305. - Penalties.

- (a) In addition to any interest, penalty, lien or other remedy available to the City at law or in equity, any person who violates the provisions of this Article, fails to pay any tax when due or who submits false information to the City concerning the local motor fuel tax, shall be fined not less than \$200.00 plus court costs per offense. Each day, or part thereof, that a violation exists or continues, shall constitute a separate offense.
- (b) Additionally, a violation of any term of this Article shall subject the Retail Fuel Dealer to suspension or revocation of their Business Registration License in accordance with Chapter 26 of the City of Belvidere Municipal Code.

I would like to put a discussion on the next available city agenda regarding the installation of banners on light posts along STATE ST AND possibly Logan, maybe something like with the City of Bellevue logo to give the main downtown area a more "Homey" inviting feeling to our citizens and potential shop owners.

Thank you
