

Illinois Department of Commerce & Economic Opportunity

At the Department of Commerce and Economic Opportunity, we are doing everything we can to protect the people and businesses of Illinois.

Today the Governor launched the All In Illinois campaign, to remind residents of our state to stay home, stay safe and stay healthy. On our [All In Illinois website](#), you will find a tool kit of key messaging, social profile templates and downloadable posters for you and your family, neighbors, employees, members and constituents. Please share this toolkit with your email lists and share through social channels so that we get this message to as many people as possible. We will be providing physical signs across the state and we will share the details once system is in place.

In addition, we've asked Illinois celebrities and leaders to help us keep people safe during this time by making short selfie videos that remind Illinoisans how to slow the spread of COVID-19. We want you to feel appreciated for the sacrifices you're making to keep everyone safe. And we want people to take the pledge to go "All In, Illinois." As a leader in your community, we'd love for you to help us carry this critical message to even more people.

Below you will also find a list of federal and state programs we encourage businesses to take advantage of. Please visit our website [here](#) for more information.

Thanks for everything you're doing to help during this unprecedented crisis. I wish your community safety and health.

Sincerely,

Director Erin Guthrie
